Comments: #1, 9, 10, 11, 17, 18, 19 ^I Need more information. #10 who's bible?

#6 merit pay should be based multiple items including student achievement. #3 until we hit the cap it provides taxpayer protection. Over (use additional sheet if necessary.)

Return to: Gem State Voter Guide, P.O. Box 44873, Boise ID 83711 or fax to 866-622-3985

#25 I support a modified open primary or a call for ballot. A closed primary would end up privately fund and would be expensive to a political party. Ultimately, you would end to a caucus system. Which in my judgement would have your values and mine

#3 The largest threat to the state budget from the removal of the cap does not come from Charter Schools. It comes from Public Schools who have discovered they can get more state money from forming a charter school within their district. I have to be able to balance the budget therefore I need some predictability on growth.
